

DIVISION 14 – CONVEYING SYSTEMS

14 20 00 ELEVATORS

A. Design Considerations

1. Elevators for all capital improvement projects shall be coordinated by the Project Manager. To ensure conformity throughout the University, the **University Elevator and Escalator Design Guidelines**, which is an appendix to the University Design standards, is to be adhered to.

B. Special Documentation Requirements

1. The A/E shall provide all documentation required for bidding, fabrication and installation, following the **University Elevator and Escalator Design Guidelines**.

C. Materials and Methods of Construction

1. Refer to the **University Elevator and Escalator Design Guidelines** for additional information.

14 31 00 ESCALATORS

A. Design Considerations

1. Escalators for all capital improvement projects shall be coordinated by the Project Manager. To ensure conformity throughout the University, the **University Elevator and Escalator Design Guidelines**, which is an appendix to the University Design standards, is to be adhered to.

B. Special Documentation Requirements

1. The A/E shall provide all documentation required for bidding, fabrication and installation, following the **University Elevator and Escalator Design Guidelines**.
