

Mismanaging of Regulated Medical Waste (RMW)

is not allowed per Federal & NJ State regulations

Regulated Medical Waste Boxes

- Considered full at 2/3's
- Never for disposal of liquids
- Should never have items sticking out
- Not blocking doors, walkways, safety showers, fire extinguishers, or electrical panels

RMW Secondary Containers

- Must be rigid to prevent punctures and leaks

Sharps Containers

- Dispose of sharps containers when 2/3's full
- For disposal of RMW sharps including histology slides, tissue culture slides, or needles

Broken Glass Boxes

- Not for disposal of histology slides, tissue culture slides, or needles
