Information for third parties using Rutgers University facilities for youth-serving programs or activities.

Non-University organizations that wish to operate programs or activities involving minors at Rutgers must ensure their programs are run consistent with the guidelines of the University’s Protection of Minors (POM) Policy and the Guide to Working with Minors.

The following requirements must be met by Program Directors 4 weeks before your program begins:

- **Registration**: Register your program in the Rutgers POM Database [halflife.rutgers.edu/minors](http://halflife.rutgers.edu/minors). You will need to contact the POM Steering Committee for an assigned UserID and password to access the database.

- **Training**: Enroll yourself, your employees, volunteers, and service providers for the free 30-minute online training by clicking “add person” as part of the registration process in the database. Please note, employees should not self-enroll for training. They should be enrolled by the Program Director as part of the registration process.

- **Background Checks**: Conduct criminal history and sex offender checks on participants who exercise responsibility over minors as defined by the policy. This is required once every three years. You may select “Third Party Coordinated Checks” in the POM Database during registration. Once each employee has successfully passed their background check, please log back into the database and certify the check was completed by entering the date of the check for each employee.

No authorized adult or volunteer in a direct contact position as defined by the policy may work with minors until a satisfactory criminal history check has been completed.

Rutgers uses General Information Services for background checks related to hosting minors on campus. If you do not have an existing vendor, you may utilize the following options:

- **General Information Services (sister company)** [https://www.backgroundchecks.com](https://www.backgroundchecks.com) 866-300-8524

**Note**: Rutgers may require third parties to provide documentation showing proof of background check completions upon request.
